

400 North

IMPROVED

Bountiful

Special Paving Update: November 21, 2016

Due to wet weather, crews have rescheduled paving activities between 200 West and 500 West to tomorrow, November 22.

Additionally, as crews continue with mainline paving in this section, the side street access between 300 West and 350 West will be closed for approximately 15 days while the work is completed and the concrete cures. We are asking residents to please use 200 North to access 300 West and 350 West. Pedestrians are to use the 200 West, 400 North crossing during this time.

The project remains on schedule to complete all major activities by the end of the year. Crews will not work Thursday, November 24, in observance of the Thanksgiving holiday.
