

# 400 North

## IMPROVED

Bountiful

### **Construction Update**

#### **March 13, 2017**

**Mainline roadway paving is complete!** We appreciate your patience as we continue finishing up the remaining work items.

#### **What's next?**

Crews will open the 200 West intersection and I-15 Off-Ramp to traffic later next week, once the concrete has cured. Crews will continue working through the coming weeks to complete remaining activities which include side street tie-ins, curb and gutter installation and driveway approaches.

**Tomorrow, Tuesday, March 14 through March 28:** Crews will excavate in advance of curb and gutter replacement. Excavation will begin on the south side of 400 North at 100 West and will move east to the eastern project limits. Work will then move to the area from 200 West to 100 West, then 200 West to 500 West and ending between 500 West and the I-15 Off-Ramp.

**As early as March 28,** crews will begin curb and gutter placement. Once curb and gutter has been placed and is curing, crews will begin work on side street tie-ins and driveway approaches.

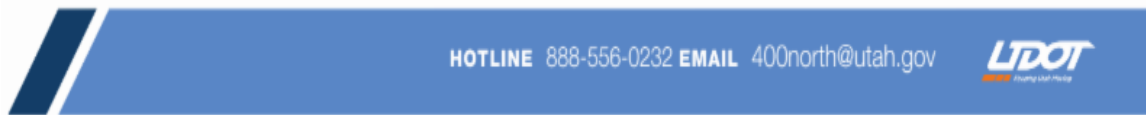

#### **What are the impacts?**

- Crews will close the eastbound right lane during the day.
- NO PARKING ON 400 NORTH while crews complete work.
  - We know construction has been especially difficult for 400 North residents and businesses. We appreciate your patience as we near project completion. We are pushing to complete work as soon as possible and we need your help to stay on schedule.

- Please do not park inside the work zone during this time and pay attention to notifications and signs regarding parking restrictions as the work moves from one area of the project to another. Vehicles parked in the work zone slow down construction, could damage new concrete or lead to re-work.
- Bountiful Police Department will also provide additional parking enforcement during this time to help us complete work as quickly as possible.
- Side streets may be impacted or intermittently closed as crews remove and replace asphalt to match the new concrete roadway on 400 North.

**Have questions regarding your property?**
