

Water Storage When, Why & How

BECKY GOODRICH

“The Prep Lady”

will give her very popular presentation on long-term water storage and purification

Thursday, May 13, 2021, 7-8 p.m.

Via Livestream (only):

tiny.cc/bountiful-eprep-water

(all lower case)

- Why should I store water?
- How much water do I store?
- What containers are best?
- How do I prepare the water?
- How do I prepare containers?
- Where do I store it?
- How long can I store it?

Becky Goodrich has been researching every part of preparedness since 2000. Finding what worked for her family, she began to share with others. From cooking with stored food, to water storage, and to preparing kits, documents & inventories, she has studied it all and teaches it all.

“If an earthquake, hurricane, winter storm, or other disaster strikes your community, you might not have access to food, water, and electricity for days or even weeks. By taking some time now to store emergency food and water supplies, you can provide for your entire family.”
